- Repeat business and word of mouth referrals from previous clients

THE OPPORTUNITY

The Company has a strong brand name with over 30 years of experience and has won numerous industry awards. They are well-respected for being prompt in responding to initial inquiries and following through with proper planning and implementation by highly capable and experienced staff. This business model results in extremely satisfied customers. The front end design and estimating team is very competent and proficient. Custom home builder clients are extremely appreciative of the level of service both they and their customers receive. These relationships are longstanding due to the confidence in the service the client will receive, knowing projects will be completed on time and on budget and any problems will be solved collectively from a team perspective. This is a rare but imperative ingredient in order to be efficient and profitable for all parties involved.

There is opportunity to increase revenue through diversification by bidding on commercial/municipal contracts and developing relationships with developers and contractors. There are also growth opportunities through the addition of snow removal, lawn care and irrigation services.
